

11th IIR Gustav Lorentzen Conference on Natural Refrigerants
Natural Refrigerants and Environmental Protection
August 31-September 2, 2014
Hangzhou, China

第二轮通知

会议背景

The IIR's Gustav Lorentzen conferences are acclaimed as the leading cutting-edge series of events covering all natural refrigerants. These events enable participants to keep abreast of progress and trends in this field. The IIR's focus on the importance of the exchange of knowledge in the field of refrigerants is reflected in the Gustav Lorentzen conference. The replacement of CFC, HCFC and HFC refrigerants with natural refrigerants is now taking place to increasing extent within the refrigeration, air-conditioning and heat-pump industry, but requires national and international strategy and knowledge exchange.

Join world leaders in the field to discuss the latest research results and advances related to the use of natural refrigerants in different types of systems and application areas.

主题报告

1 Replacing Refrigerants Straightforward: Many Complexities In Addressing The Broader Issue

Dr. Lambert Kuijpers, Technical University Eindhoven

2 Analysis of ammonia incidents recently happened in China

Prof. Jiang SHEN, Tianjian University of Commerce

3 Environmentally safe and energy efficient solutions

Mr. Alexander Cohr Pachai, Johnson Controls

4 INTERNATIONAL STANDARDS FOR REFRIGERATION SAFETY

Dr. Andy PEARSON, Star Refrigeration Ltd.
